

PREPAC® Zero Spray-Free All-In-One Cleaning Technology with ZERO Need for Water Supply

PREPAC Zero is a pre-impregnated all-in-one cloth consumable, unique to the market because it eliminates the need for spraying water during cleaning cycles. Instead, it integrates a water substitute.

This revolutionary new spray-free consumable will effectively optimize both productivity and print quality through enhanced cleaning ability. All this, while also dramatically reducing both operation and maintenance costs.

Your Key Benefits

- Zero maintenance on water spray pipes
- Zero need for cleaning water pump station
- Optimal paper lint removal
- Long lifetime in the press
- Zero dripping
- Zero corrosion
- Low waste
- Short wash program

Zero Maintenance Saves Hours of Time

Thanks to the water substitute in PREPAC Zero, there is no need for printers to do any maintenance on water spray pipes. The water system can be completely disconnected.

Another bonus is increased cleaning ability due to the continuous 100% uniformity of cleaning solvent and water substitute in the cloth. For printers, it means PREPAC Zero makes cleaning much easier, faster, and more accurate than ever before.

Zero Maintenance

needed on your water
spray system.

Baldwin's unique capabilities

Best in Class Cleaning

- Consistent cleaning results
- Optimized formula
- Customized solution

Zero Maintenance

- Zero spray pipe cleaning
- Shorter make ready time
- Less service & handling

Eco Friendly

- No handling of solvent
- Non-VOC solvent
- Low consumables waste

"All-In-One"

- Full product support
- Field engineering
- Process know-how

If you are using a pre-impregnated wet cloth roll, PREPAC Zero will dramatically reduce maintenance and operation costs since it is spray-free. If you are using a traditional cleaning cloth, you will save tons of time compared to mounting a dry cloth to a roll, adding it to the process with the need for water and maintenance. Now, you now can get it all done in seconds with the plug-and-play PREPAC Zero.

Dramatically Reduced Production Costs

With zero maintenance on spray pipes and zero dependence on wash program parameters, the production cost will dramatically decrease.

Fast and Enhanced Cleaning

The innovative solvent formula together with Baldwin's patented cleaning cloth is a winning combination for a fast and short wash program and perfect cleaning result each time. Paper lint, ink residue and dust are easily picked up by PREPAC Zero. The spray-free feature of PREPAC Zero will also eliminate any occurrence of dripping.

Unique Formula Prolongs Lifetime in the Press

The high quality of the all-in-one cleaning consumable and the unique solvent formula enable an extremely long lifetime in the press with a consistent wash result week after week. This will also keep a low waste level and reduce your production costs.

No Corrosion

Since there is no water spray and no evaporation of the solvent in the cloth, there is zero risk of corrosion on the press or the cleaning unit.

PREPAC Zero to the left, has a dramatically higher cleaning ability compared to a competitor's cleaning cloth to the right.

Certification on compliance with the process standard.
