

DINAMICA S

Compact and Highly-Efficient Wrapper
for Hygienic Rolls

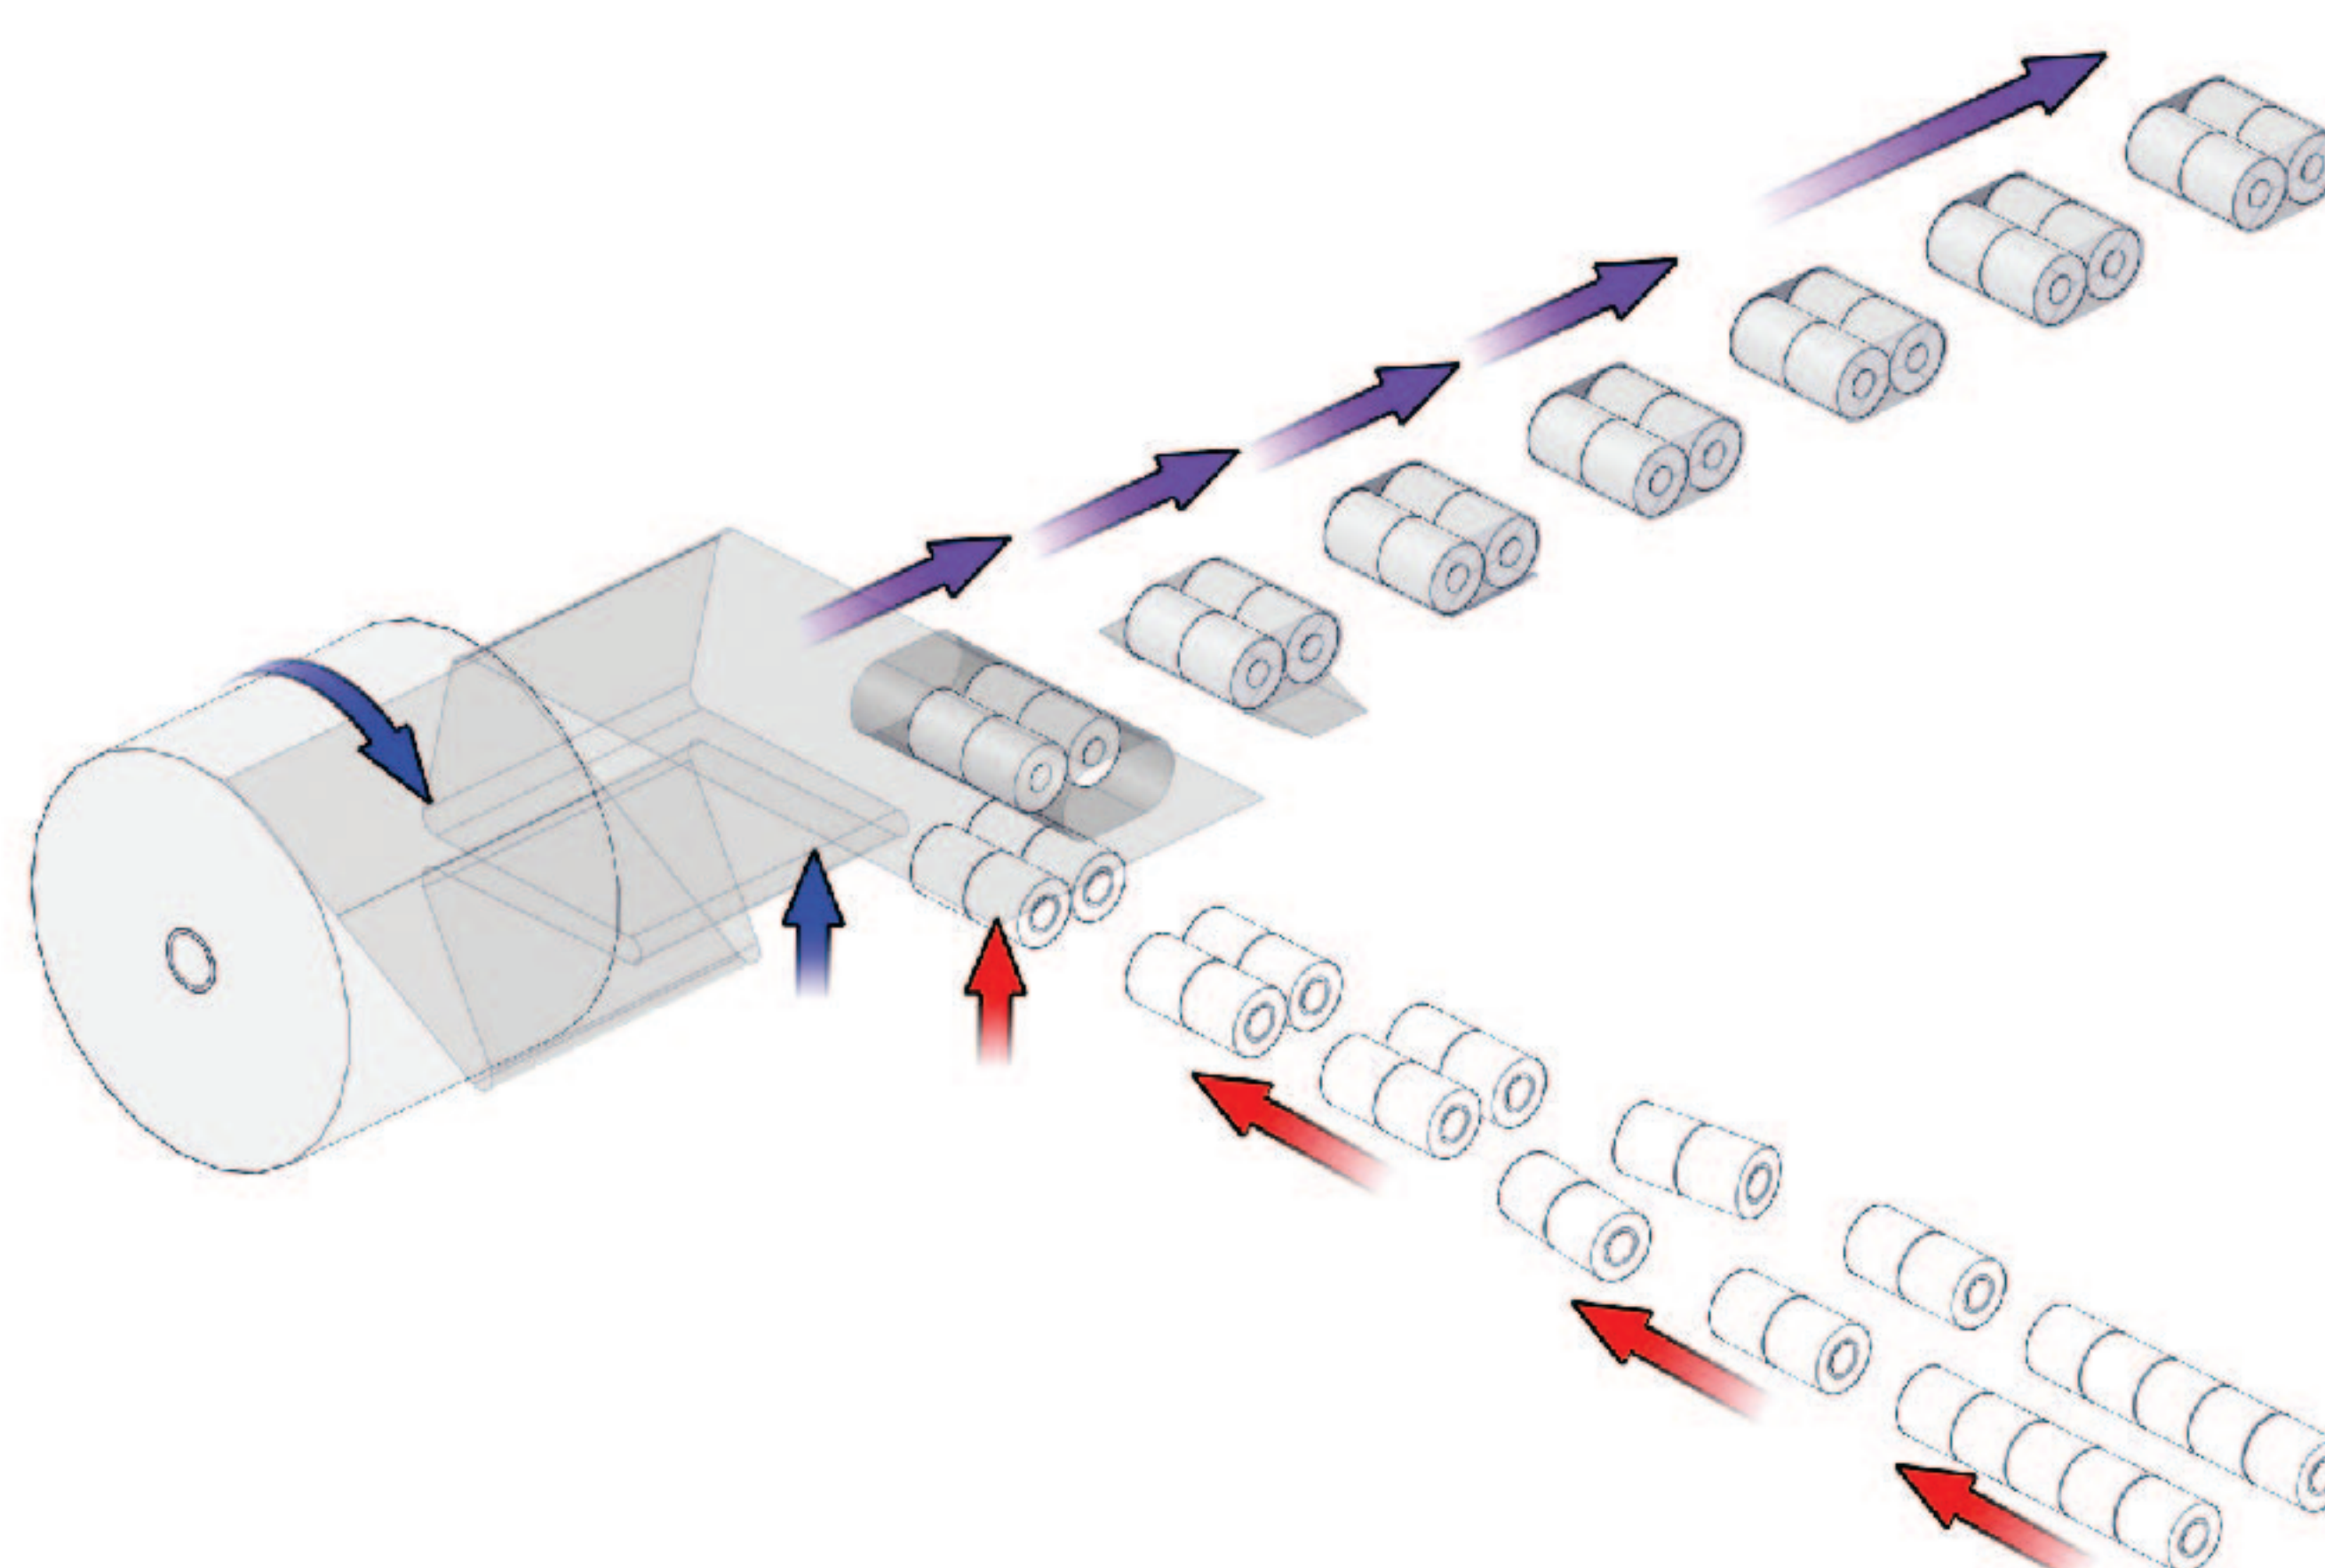

The wrapper **DINAMICA S** is a highly efficient packaging machine for hygienic rolls with two infeed lanes. It is designed to wrap single, two, four and six toilet rolls as well as single or two kitchen towels in foil. It reaches output production speed up to 270 packs/minute. With a very low cost of maintenance and compact dimensions, this wrapper is ideal for high capacity converting lines.

Characteristics

- Wide range of roll diameters and cut-off options
- Easy changover
- Maintenance-Friendly Access
- Infeed 2 lanes
- Maximum speed up to 270 ppm
- Hot melt paper wrapping option
- Paper Fold & Tuck paper wrapping option
- Lateral perforation for easy opening option
