

FAMA

Eco-Friendly,
Automated Wrapping Solution

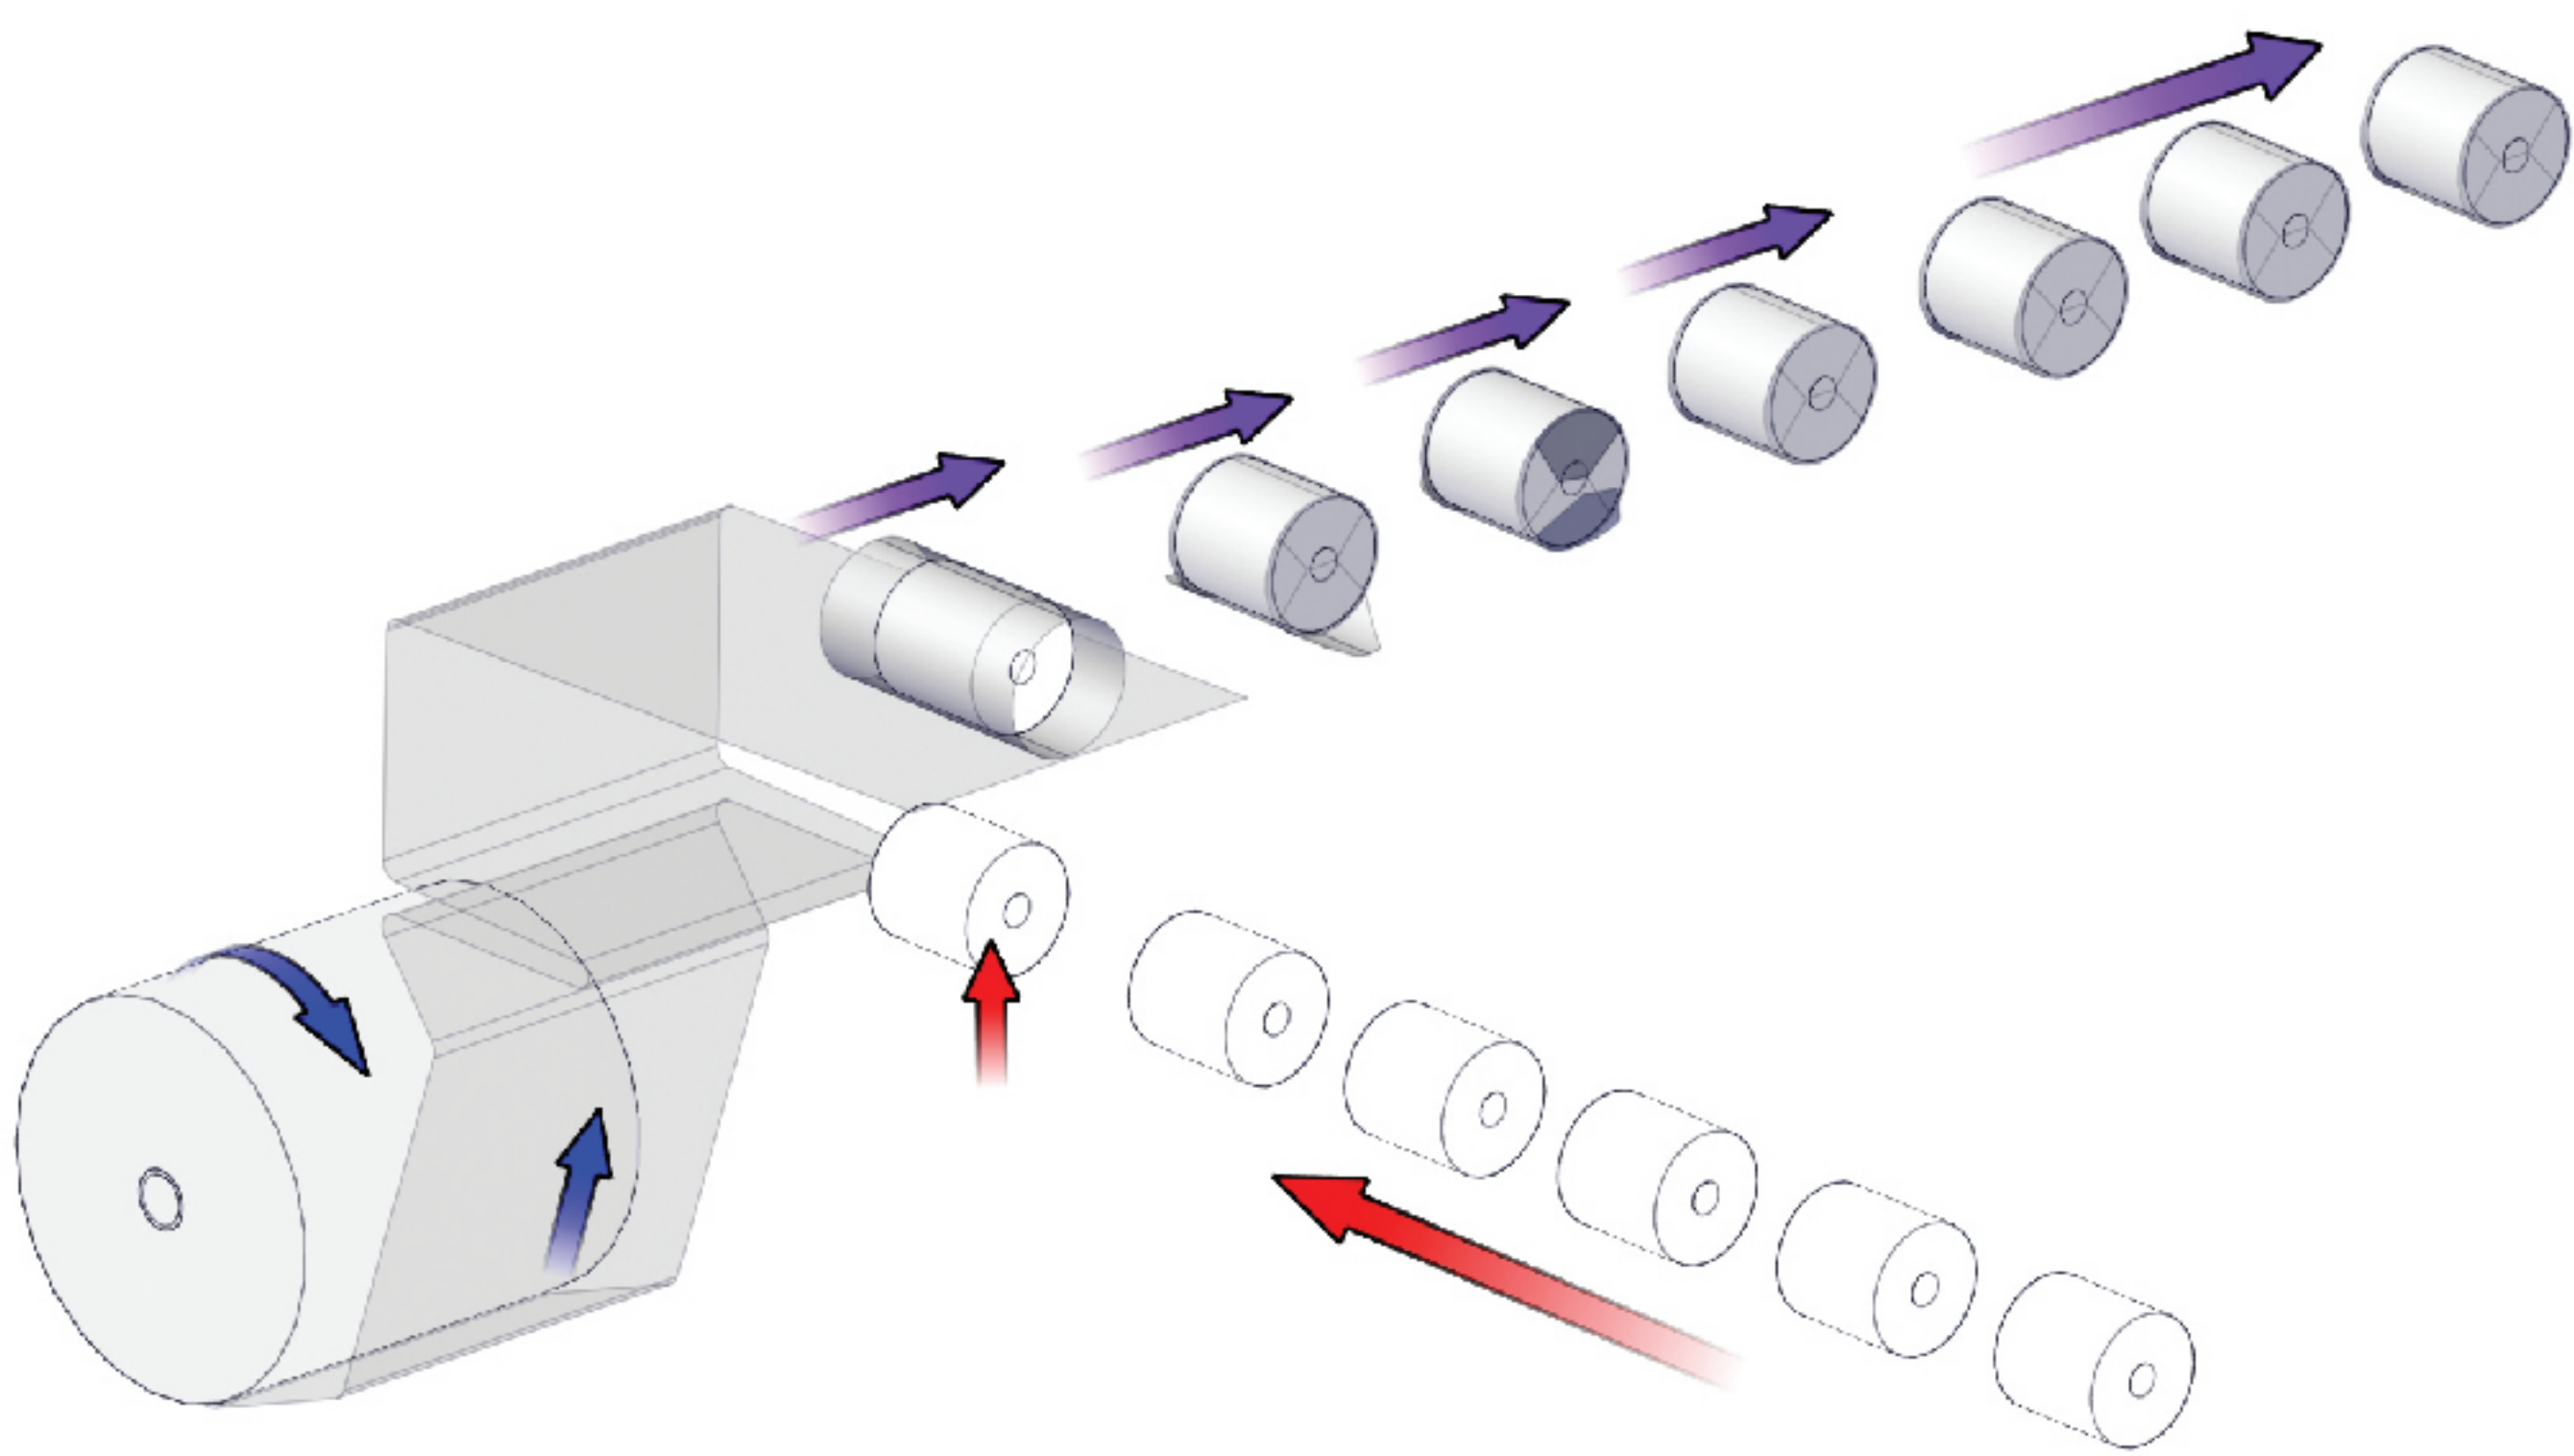

As a result of a constant search to create something unique and to contribute to an ecologically oriented way of thinking, STAX Technologies launched a new product - **FAMA**. Having in mind the slogan Go Green Save the Future, this machine was designed not only for foil wrapping, but also for paper wrapping of jumbo rolls, which makes it the ultimate product in this industry. FAMA can also pack regular-size rolls, in paper or foil. It is completely automated and user-friendly.

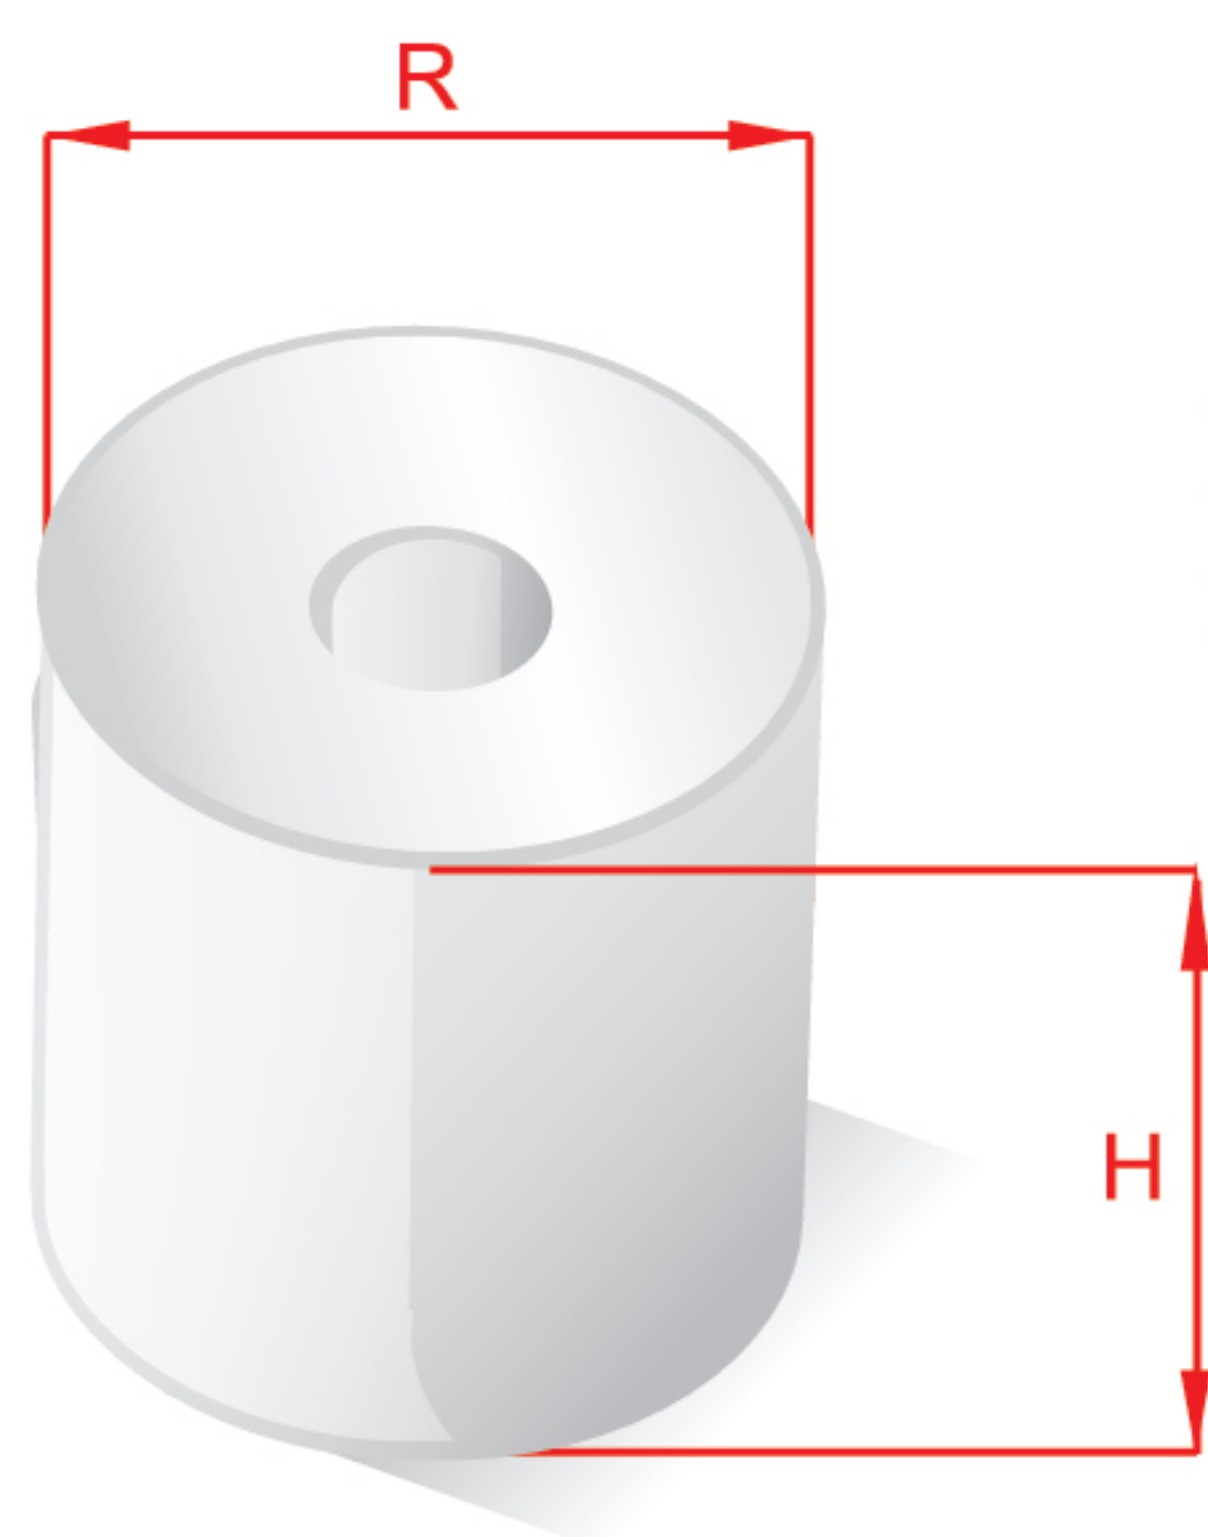

Characteristics

- Easy changoever
- Maintenance-Friendly Access
- Single lane Infeed
- Single industrial roll wrapper
- Roll diameter up to 300 mm
- Hot melt paper wrapping option
- Lateral perforation for easy opening option
