

# NB-400

## Versatile Packaging Solution for Folded Products

Maximum speed  
**up to 10 bpm**

Automatic bundler for packaging of the folded-products (napkins, handkerchiefs, kitchen towels) into transport bags. It is designed for medium-volume production and it can overwrap a wide range of packaging configurations as fast as 10 bundles/minute. Highly flexible, this machine can pack from up to 660 mm in length, 400 mm in width and 200 mm in height. With option of photo-eye for mark registration and handle maker, this bundler becomes a robust packer, which can pack not only for transportation purposes but finished products as well.

### Characteristics
