

NWH-45

Highly-Performed HoReZa Napkin Wrapper
with Advanced Flexibility

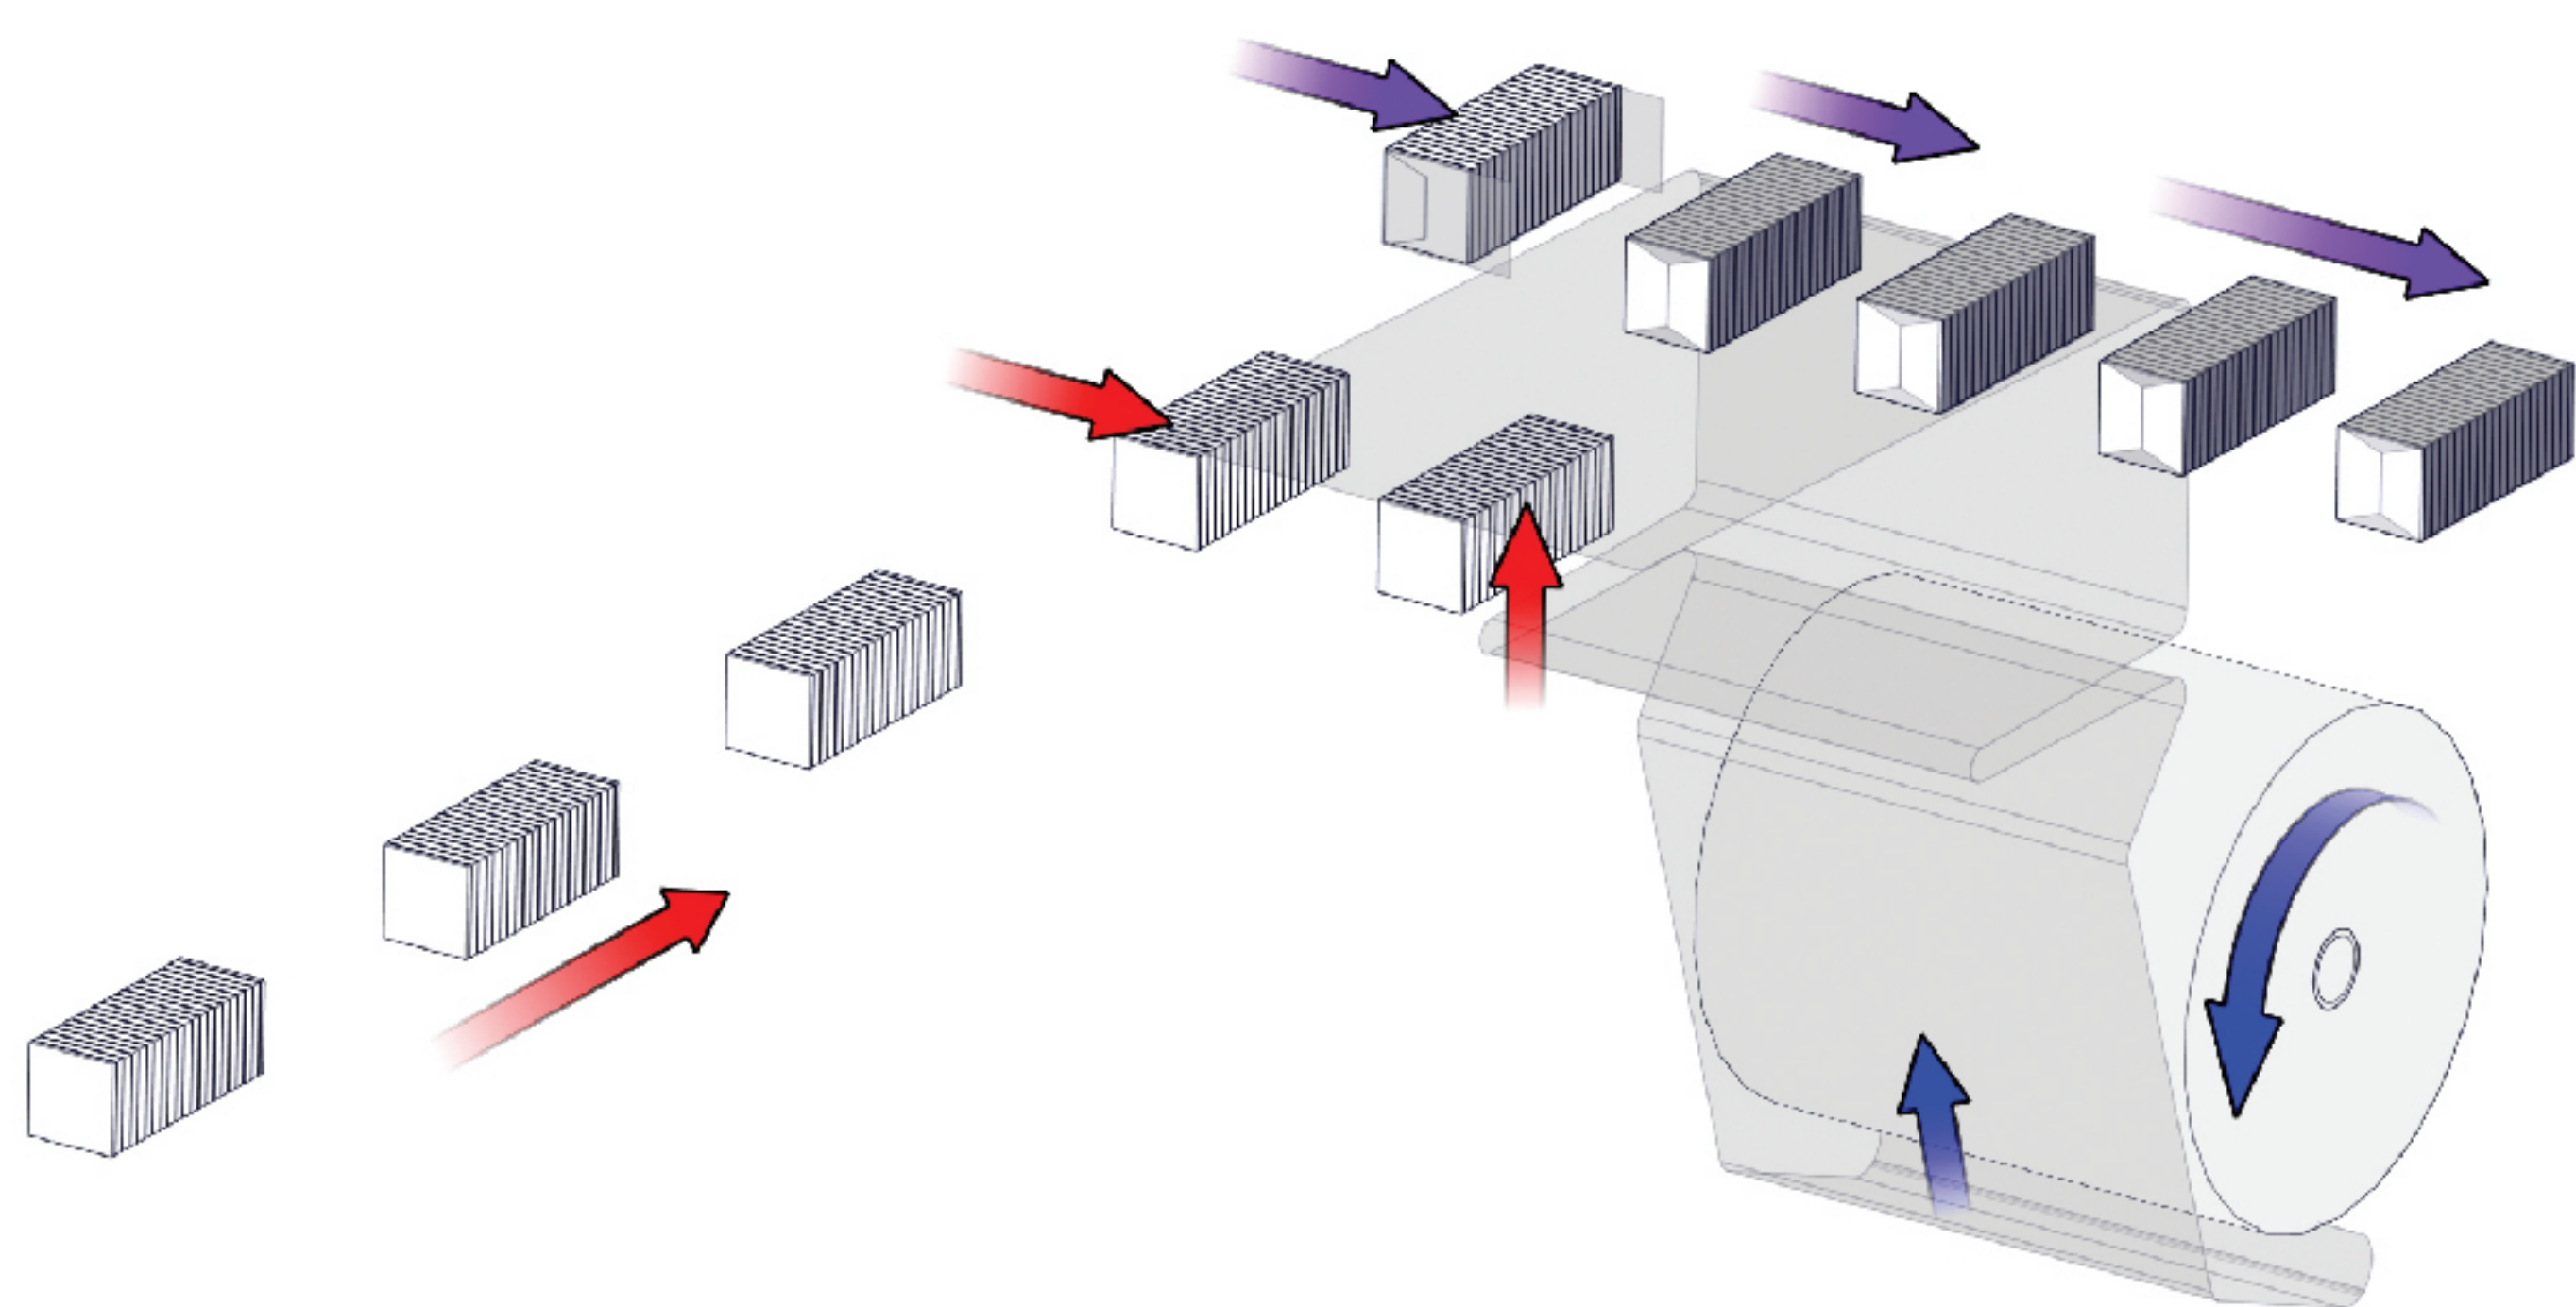

Napkin wrapper **NWH-45** is an automatic packaging machine for tissue and nonwoven napkins. This is our top of the line napkin wrapper, very economical and efficient. It can pack up to 45 HoReCa packs/min. This wrapper is extremely easy to use, it is fully servo driven, and controlled by the most advanced motion controller OMRON - NJ501 which allows extreme flexibility in operation and quick format changeover.
