

# RW2-AFH

Economical and Efficient Industrial Roll Wrapper  
with High-Speed Performance

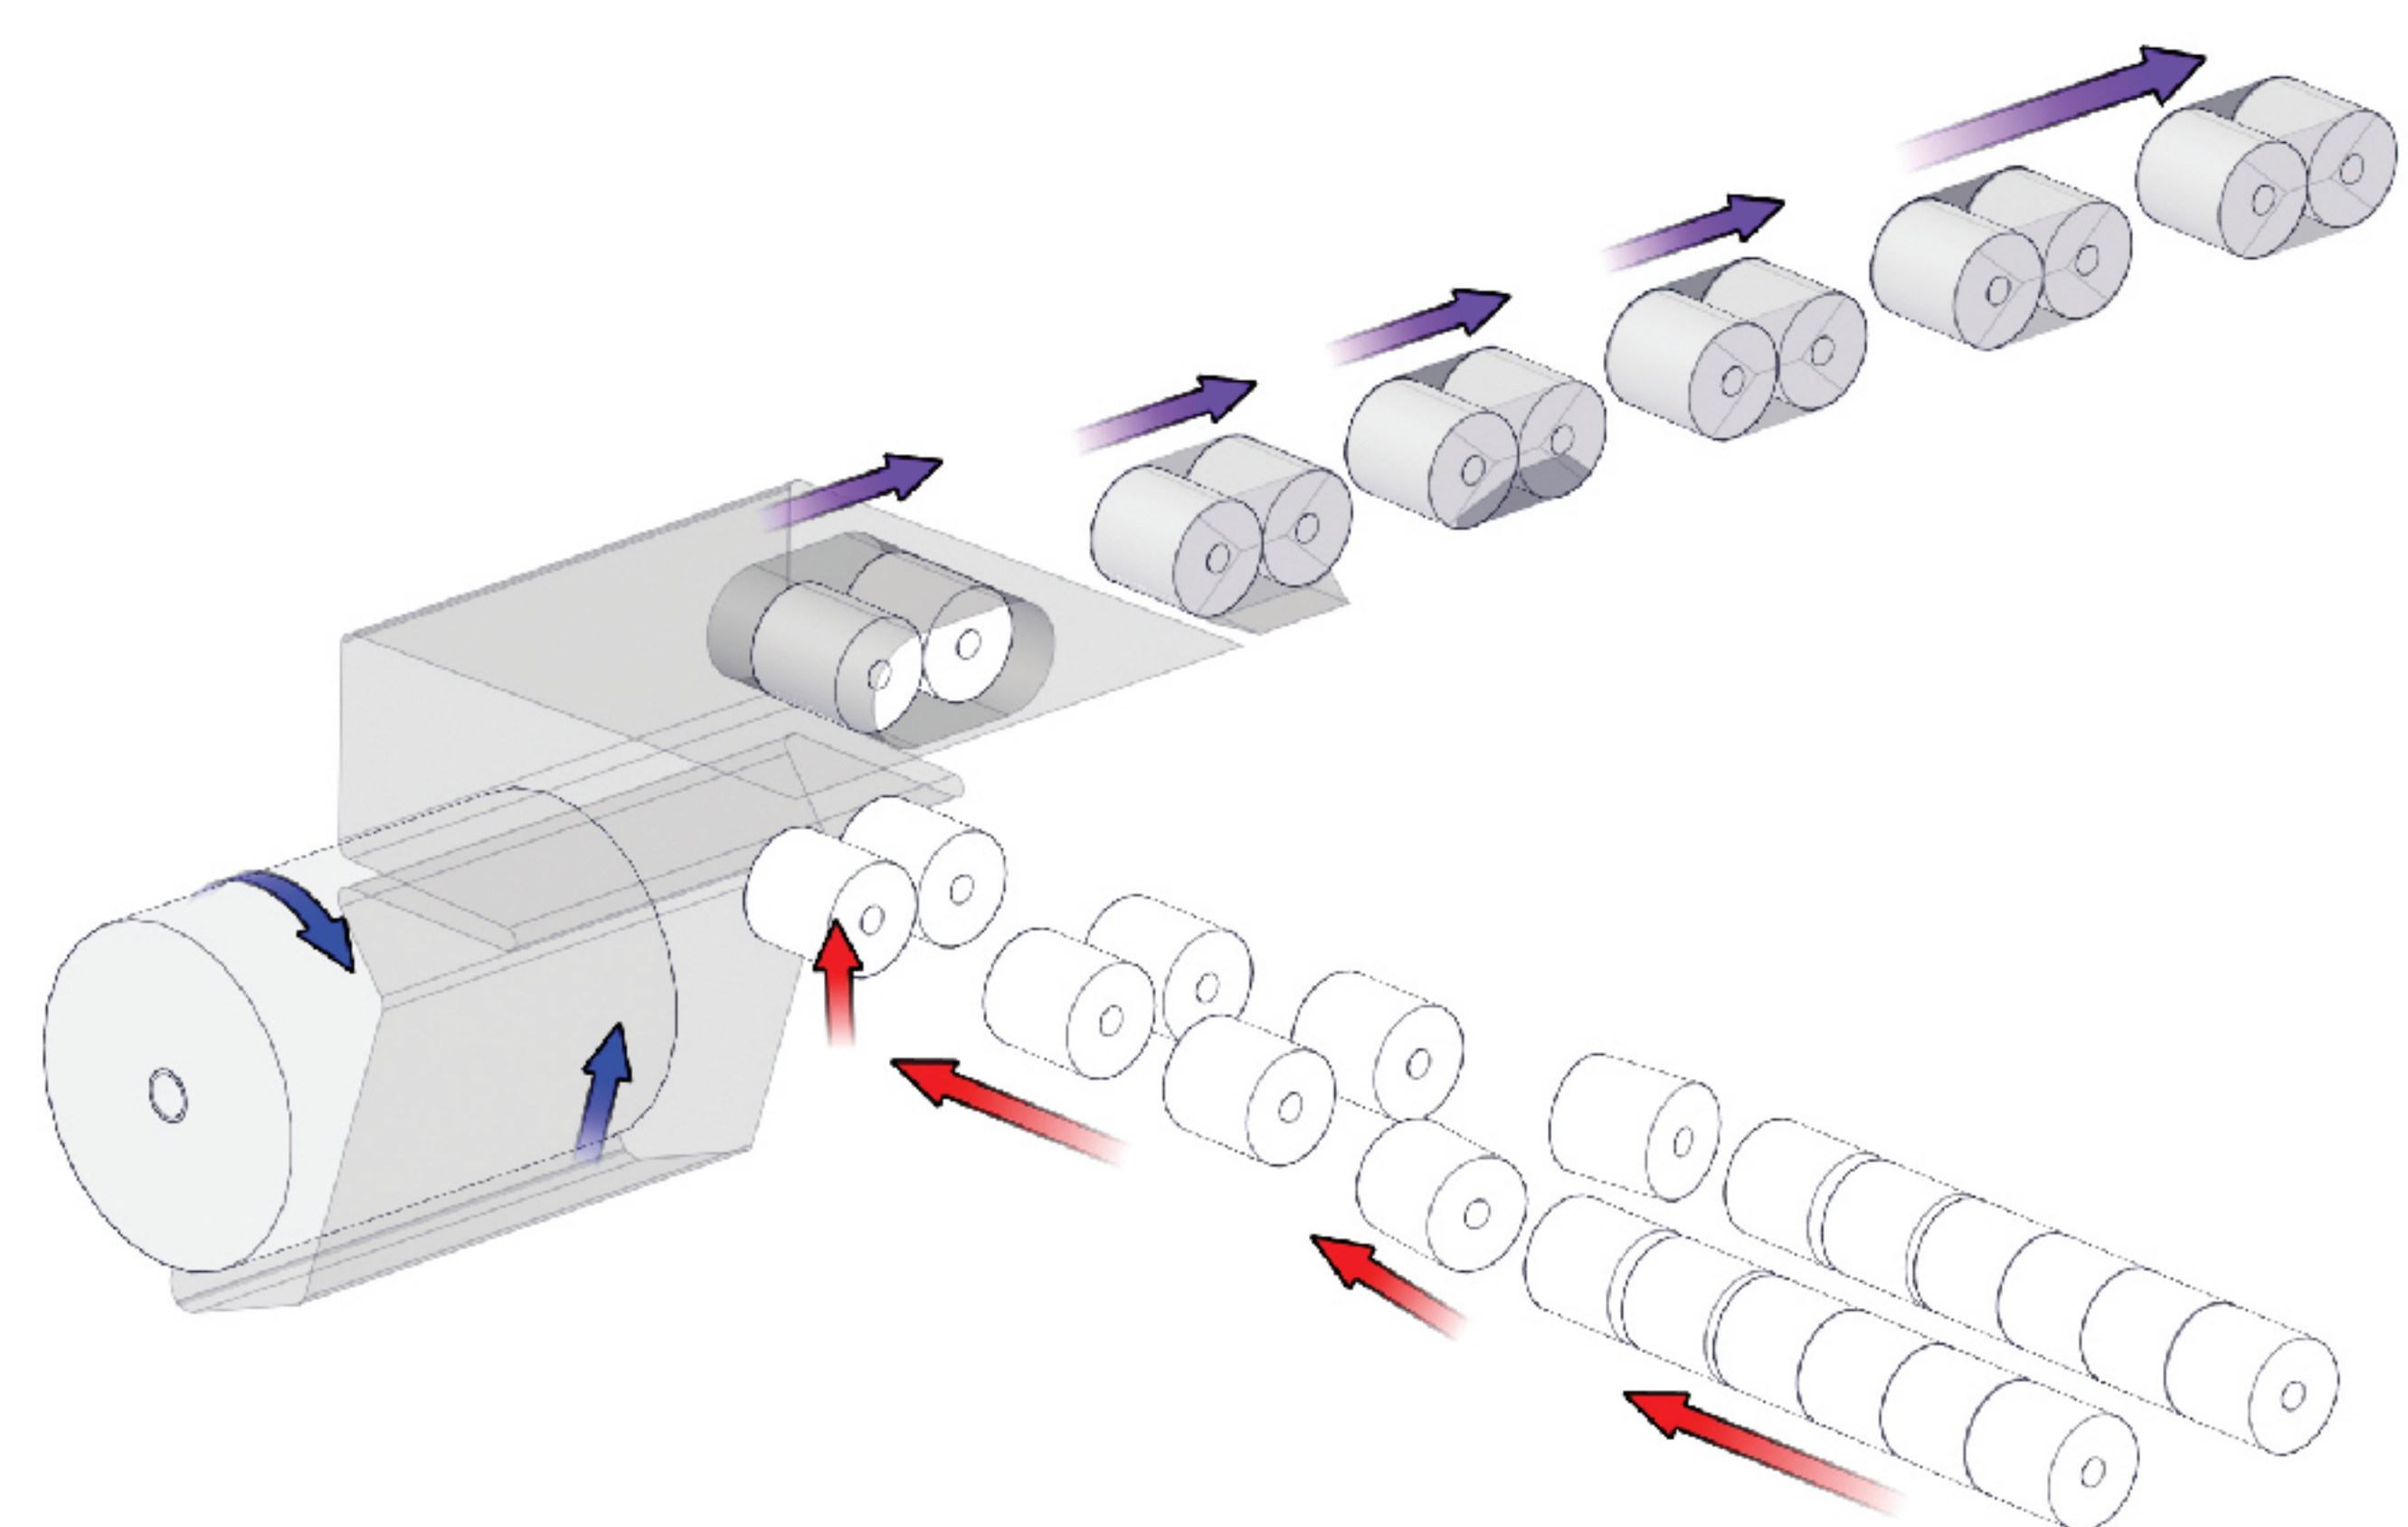

The RW2-AFH wrapper is a packaging machine for industrial rolls, very economical and efficient. It packs from single roll to 2 rolls in a row, a single layer, with 2 lanes infeed, with a production speed up to 130 packs/minute.

**Characteristics**

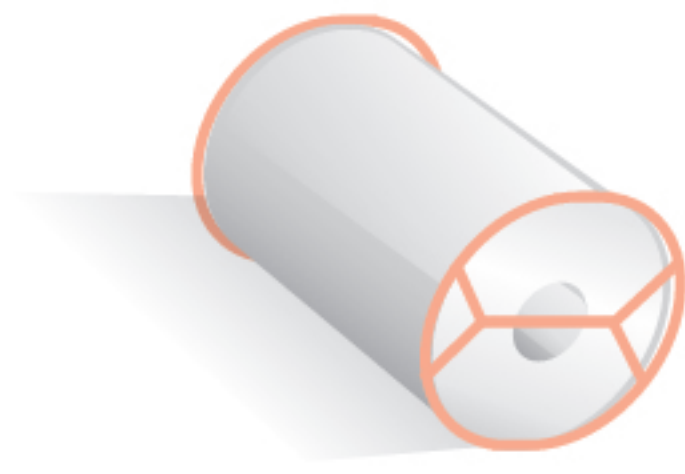

- Easy changoever
- Maintenance-Friendly Access
- Infeed 2 lines
- Maximum speed up to 130 ppm
- Roll diameter up to 300 mm - single
- Roll diameter up to 240 mm - twin
- Hot melt paper wrapping option
- Lateral perforation for easy opening option

**Flow chart**

## Packaging variations

Rolls diameter (single )  
100 - 300 mm (3.9"-11.8")

Rolls length  
(cut-off) 90 - 300 mm(3.5"-11.8")

Rolls diameter (double)  
100 - 240 mm (3.9"-9.4")

Rolls length  
(cut-off) 90 - 300 mm(3.5"-11.8")
